

# Abkhazia Lithium Ion Battery Pack 12v

What is the lithium-ion power brick + battery 12v-12ah?

The Lithium-Ion PowerBrick +battery 12V-12Ah offers high level of safety through the use of cylindrical cells in Lithium Ferro Phosphate technology (LiFePO<sub>4</sub> or LFP). PowerBrick +12V-12Ah integrates an innovative Battery Management System (BMS) in its casing to ensure a very high level of safety in use.

Where can the lithium battery powerbrick + 12v-12ah be installed?

Thanks to its technology, the lithium battery PowerBrick +12V-12Ah can be installed in any position (vertically, lying on the side or head down). The electrical parameters of the PowerBrick +lithium battery 12V-12Ah are compatible in all respects with those of an AGM lead battery of 12V.

What is a 12V rechargeable lithium-ion battery pack?

12V rechargeable Lithium-ion Battery Pack is designed specifically to integrate with our Light bars, Flexible LED Lights, or most 12V DC electronic device. Do not use the 12V lithium battery pack in places with high humidity or where it may be exposed to wet. Do not modify or disassemble the power bank.

Is the power brick + lithium battery compatible with an AGM lead battery?

The electrical parameters of the PowerBrick +lithium battery 12V-12Ah are compatible in all respects with those of an AGM lead battery of 12V. In the vast majority of cases, the charging system can be kept the same and no additional accessories are required to perform the replacement.

How do I charge my 12V rechargeable lithium-ion battery pack?

Please turn on the battery switch to position "I" for charging. The LED indicator of the AC/DC charger will change from Red to Green if the battery is fully charged. 12V rechargeable Lithium-ion Battery Pack is designed specifically to integrate with our Light bars, Flexible LED Lights, or most 12V DC electronic device.

Can I replace a lead acid battery with a powerbrick +?

In the vast majority of cases, the charging system can be kept the same and no additional accessories are required to perform the replacement. Given PowerBrick + can be 100% discharged, a lead acid or AGM battery can be replaced by a PowerBrick + with half the capacity of lead acid battery (ie: PowerBrick +50Ah can replace a AGM 100Ah battery).
