Are you looking to power your off-grid adventures or create reliable backup power for your home? Whether you need a 12V, 24V, 48V or 72V battery system, a DIY battery box kit can be the perfect solution for your ...

W or Watts is the power or oomph which a camping battery can supply to a gadget or appliance. For instance, if your hair dryer runs at 1800W AC, it means you need a power supply capable of supplying at least 1800W (1.8kW) of alternating current (i.e. like a regular mains supply). Typically it's also worth having a bit of headroom above this value too - we ...

The Precision Power Outdoor Micro UPS series offers the world's smallest, scalable hardened uninterruptible power to complement any 5V/12V/24V/48V outdoor deployment up to 75 watts.
