

Does it require construction approval to install solar panels on the roof

Do I need a permit for rooftop solar panels?

Blue Raven Solar has a team dedicated to submitting, approving, and verifying permits. Here are some of the most common questions associated to permitting for rooftop solar panel systems: 1. Do You Need a Permit for Solar Panels? Yes.

Can I install solar panels without a permit?

If you choose to install solar panels without first obtaining the necessary permit, you may be subject to fines or other penalties. In some cases, you may also be required to remove the solar panels from your property. It is always best to check with your local planning department to determine the specific permit requirements for your project.

Do I need an inspection before installing solar panels?

An inspection before installation is necessary to ensure that your property's electrical system can handle the addition of solar. If you're installing a rooftop solar panel system, an engineer will also need to inspect your roof's structure to make sure it can withstand the additional weight of the solar panels and racking equipment.

How do I get a permit for a rooftop solar system?

One of the process steps which is more complex is acquiring the necessary permits from city, county, and/or state offices. Blue Raven Solar has a team dedicated to submitting, approving, and verifying permits. Here are some of the most common questions associated to permitting for rooftop solar panel systems:

Do I need a permit to install a solar system?

Generally, you should expect to have to file for an electrical permit, a structural or building permit, and/or a dedicated solar photovoltaic (PV) permit. To obtain these, you'll often need to provide specifications about your proposed solar equipment and system design.

How much does it cost to install solar panels?

In most cases, the fees are very reasonable. For example, a permit to install solar panels on a residential property in the city of Los Angeles costs \$39. The cost of a permit for a commercial installation is typically much higher, but it will vary depending on the size and scale of the project.
