"We aim to be the first local lithium supplier in an integrated European battery supply chain," says Dietrich Wanke, CEO, European Lithium. European Lithium has grown into a crucial player within the lithium supply chain and continues to play its part in the ongoing transition as the world looks to embrace environmentally-friendly solutions.

We are specialized in second life of Lithium battery. We sell tested used 18650 cells, and lifepo4 prismatic cells for the DIY powerwall market. In our shop you can find all battery with their own capacity handwritten (when used).

Elevate your power solutions with our LiFePO4 battery cells category. Discover cutting-edge, high-performance lithium iron phosphate cells for extended durability and safety. From energy storage systems to electric vehicles, our cells provide reliable, long-lasting power.

Being a European lithium battery manufacturer, we understand that our customers require more than just high-quality batteries. That's why we offer support in all key areas, including design, testing, and certification. Our team of engineers is available to help customers optimize their battery systems, from choosing the right cells to designing the most efficient packaging and ...
