Who is Lithium Power?

Lithium Power, Inc. has been the industry leader in lithium battery technology for nearly two decades. We offer turn-key lithium battery pack solutions for OEMs/ODMs that meet each company's unique requirements of cost, performance, reliability, and safety.

Who is Alexander battery technologies?

Designing, developing and manufacturing customised lithium-ion battery packs using a full range of battery chemistries, Alexander Battery Technologies delivers incredibly reliable custom battery packs for businesses across the industries we serve.

What is a custom battery pack assembly service?

CMB's custom battery pack assembly services involve evaluating battery chemistries, casing design, and management systems based on customer needs. The process encompasses basic and advanced lithium battery pack design features, each tailored to meet specific requirements.

What is lithium technology?

Lithium technology has rapidly grown in use over the last decade in consumer electronic products such as laptops, tablets, mobile phones, and vehicles. The technology is gaining popularity in the rechargeable product market due to its light weight, efficient capacity and reliability.

What is a custom LiFePO<sub>4</sub> battery pack?

Our custom LiFePO<sub>4</sub> battery packs are made in cylindrical and prismatic formats. LiPo batteries allow for greater flexibility and ensure the perfect fit for vehicles, machinery, and other various devices with unusual dimensions and weight requirements. Why Choose CMB As Your Custom Battery Pack Manufacturer?

Who is custom power?

Since 1965, Custom Power has designed and assembled custom battery solutions for critical OEM devices. We provide battery pack assemblies in all chemistries and for all electronic applications, all built to match our customers' unique requirements.

Himax offers a wide range of custom lithium battery packs that are designed to meet the specific requirements of applications such as electric vehicles, renewable energy ...

Balancing is the most widely known function of a BMS (Battery Management System), but there are other 5 essential characteristics that an advanced BMS system in a lithium battery must have in order to make ...
