

# Pros and cons of renting houses to solar power companies

What are the pros and cons of leasing solar panels?

Although you should weigh the pros and cons of leasing solar panels for your own circumstances, the structure has several advantages and disadvantages overall. It is best to weigh multiple contract structures to determine what will provide the most savings and value for your home. Little or no upfront costs.

What happens if you rent a solar system?

Annual increases: Unfortunately, you can expect to see annual increases in your monthly rental agreement. These tend to range between 5% and 7% per year. Higher long-term costs: Over the years, the cumulative rental payments may overtake the cost of purchasing a solar system, making renting far less cost-effective in the long run.

What are the benefits of a solar rental agreement?

Maintenance and repairs: Most solar rental agreements include maintenance and repair services, ensuring that the system operates optimally without incurring extra costs. Rent-to-own: Many solar subscription offerings allow you to move to a rent-to-own contract after a few years.

Should you rent or lease solar panels?

When you rent or lease solar panels, the leasing company benefits from federal solar tax credits of 26% and various other state tax incentives instead of you. This means that your journey to producing free, green electricity from your own panels will be longer.

Why should you rent a solar system?

Electricity savings: Solar power brings down your electricity bill and these savings can help you pay off your monthly rental. Maintenance and repairs: Most solar rental agreements include maintenance and repair services, ensuring that the system operates optimally without incurring extra costs.

Is it a good investment to lease solar panels?

Leasing solar panels comes with some challenges. While leasing a solar panel system, you do not reap the benefits of tax incentives, such as the federal solar tax credit of 26% towards installation costs and various state tax incentives, as the leasing company claims these benefits instead.
