

# Ranking of battery production equipment companies in Ljubljana

What are the top 10 European battery manufacturers?

These top 10 European battery manufacturers include Saft Batteries, Northvolt, BMZ, Leclanch&#233;, Tesvolt, Acciona, Customcells, Akasol, Voltabox, Terrae Holding. For battery manufacturers in specific European countries, you can refer to: Industry status: Saft Batteries is a leading manufacturer of advanced batteries for various applications.

Where are Northvolt batteries made?

The batteries will be produced at Saft's factory in Nersac,France,and will be used in TotalEnergies' electric buses and trucks. Industry status: Northvolt is a rapidly growing company in the European lithium battery industry,with plans to expand production capacity significantly in the coming years.

Who makes BMZ lithium ion batteries?

Industry status: BMZis a leading manufacturer of lithium-ion batteries in Europe and worldwide. Main products: High-performance lithium-ion batteries are available from BMZ for a variety of uses,including power equipment,energy storage systems,and electric cars.

Who makes Acciona batteries?

Industry status: Acciona is a leading manufacturer in the European lithium battery industry. Main application areas of products: Acciona products are mainly used in energy storage systems, electric vehicle charging infrastructure, and renewable energy integration. Cooperative companies: Endesa, Enel, and Siemens.

Who makes akasol batteries?

Main products: Akasol offers high-performance lithium-ion batteries for electric vehicles and commercial vehicles. Cooperative companies: Daimler, Volvo, and Bombardier. Main application areas of products: Akasol products are mainly used in electric buses, electric trucks, and commercial vehicles.

Who is SAFT Batteries?

Industry status: Saft Batteries is a leading manufacturer of advanced batteries for various applications. Main products: Saft Batteries offers advanced batteries for industrial and defense applications,including rechargeable lithium batteries and nickel-based batteries.

The largest lithium-ion battery companies worldwide were located in the Asian continent. China, South Korea, and Japan led the ranking in 2023.

"Battery-News " presents a current excerpt of European machine and equipment manufacturers that are represented at all scaling levels in battery production. The overview is limited to manufacturers who can map ...
