Aluminium Solar Panel Frame Profile, because the solar photovoltaic module must guarantee the outdoor service life of about 30 years, the aluminum frame used in the solar photovoltaic module should have good anti-oxidation and corrosion resistance. The frame used in general solar photovoltaic modules is divided into anodizing, sandblasting and electrophoresis.

1. This solar panel five head punching machine is applicable for both punching aluminum profiles and aluminum frames of pv solar module frame and solar panels. 2. Punching head distance is adjustable according to the customer's ...
