

# Today s latest battery price list

Which battery brand has the lowest price?

In comparison to other popular battery brands, Member's Mark is one brand that consistently offers some of the lowest battery prices available. Member's Mark AA and AAA battery packs, for example, sell batteries for only \$0.33 each! Walmart and Amazon are the only other companies that may offer a lower price at certain times of the year.

What is the difference between lithium ion battery prices and nickel prices?

Data until March 2023. Lithium-ion battery prices (including the pack and cell) represent the global volume-weighted average across all sectors. Nickel prices are based on the London Metal Exchange, used here as a proxy for global pricing, although most nickel trade takes place through direct contracts between producers and consumers.

What happened to China's power batteries in January 2024?

In January 2024, China's installed capacity of power batteries reached 32.3GWh, marking a year-on-year spike of 100.2%, but showing a month-on-month decrease of 32.6%. SAIC Motor announced on Feb. 8 its monthly auto sales reached 244,916 units in the first month of 2024, edging up 2.9% from the previous year.
